Certificate of RoHS 2 Compliance

Johanson Dielectrics certifies that all standard production Surface Mount Technology (SMT) capacitors (except those intentionally plated with Sn/Pb "T" termination code) are classified as RoHS 6/6 and meet EU Directive 2011/65/EU (RoHS-2) requirements for lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE) without exceptions as of 01/01/2005.

Requested leaded and stacked capacitors are classified as RoHS 5/6 and require the use of RoHS exception 7_(a) (lead in high melting temperature type solders) and meet EU Directive 2011/65/EU (RoHS) requirements for lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE) as of 01/01/2005. The part numbers include the +RC suffix.

All parts comply with the requirements of Directive 2015/863/EU amending Annex II of Directive 2011/65/EU limiting concentrations of the four phthalates: Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), and Diisobutyl phthalate (DIBP). Directives 2016/1028 and 2016/1029 of 19 April 2016 do not apply to parts produced by Johanson Dielectrics.
